COMMUNITY HEALTH CHAMPIONS

Are your children and family protected again flu and COVID-19 this winter?

Parents and carers are being urged to make sure their children are protected against flu this winter by completing their school vaccination consent form.

Flu can cause serious illness in children, and they can also pass the virus to family members and others who are more vulnerable to complications. The annual flu vaccine is offered to all children from Reception through to year 11, in schools and through catch-up arrangements during the autumn term.

Scan the QR code to find out more about your child's vaccinations, what to expect and what you need to do.

Join the Big City Conversation!

Residents, carers and families are being invited to help shape the future of adult social care in Stoke-on-Trent.

The Big City Conversation gives people who access care and support services, unpaid carers, and residents the opportunity to share their experience and ideas about how services should be delivered in future

Here's how!

Flu and COVID-19 walk in clinics

- **Monday 9th November 8.30am - 11.55am - St John's Centre, Newcastle Road, Trent Vale.**
- **Tuesday 17th November 11.30am - 1:15pm - Temple Street Methodist Church and Community Centre, Fenton.**
- **Tuesday 1st December 9am - 1:00pm - Longton Community Fire Station, Uttoxeter Road.**
- **Wednesday 9th December, 9:00am - 1:00pm - Royal Voluntary Service, Charles Street, Hanley.**

If you're eligible, you can attend a walk-in clinic without an appointment. You may be able to get your flu and COVID-19 vaccines at the same time.

Flu vaccines are available to people aged 65 and over and to people aged 18 - 65 with certain health conditions.

COVID vaccinations are available to people aged 75 and over and those with certain health conditions.
